PREFABRICATED WIRING SOLUTIONS

CONFIGURABLE SOLUTIONS BY SUBJECT MATTER EXPERTS

Our prefabrication capabilities are the ideal way to help streamline your projects from design to installation by working with our expert team to develop your ideas. Standardizing your unique, configurable solutions is guaranteed to improve efficiency on all your projects, such as fan & damper control cabinets, elevator recall and shunt trip, fire pump monitoring, and door and access control interfaces.

- Built to perform per NEC Article 760 for high and low voltage separations

- Assembled using UL864 listed enclosures

- Utilization of UUKL listed relays for smoke control applications when needed

- High and low voltage surge suppression when needed

- Point-to-point wiring diagram within each solution for field techs

- Fully labeled terminal strips for ease of field wiring

QUALITY CONSTRUCTION

All PanelVu prefabricated solutions are built using our UL864 listed enclosures by properly trained and accredited wiring technicians in our ISO9001:2015 registered facilities

FULLY CUSTOMIZED

Each solution is tailored to your exact needs. Using your system components and our installation accessories along with properly rated and listed interposing load relays, we design the unique layout that will become its own assembled part number with a known cost for standardization across any of your projects.

DIMENSION EXAMPLES*

Ref.	Width	Height	Depth
TC1	6 1/2"	8 5/8"	2 1/2"
AC2	14"	14"	3 1/4"
AC3	18 1/4"	18 1/4"	5 1/2"
ACEA	23 1/2"	13"	5 1/2"
ACED	23 1/2"	23 1/2"	5 1/2"
ACE2424	24"	24"	8"
ACE2436	24"	36"	8"
ACE3036	30"	36"	8"
ACE3048	30"	48"	8"

These are just a few examples of standard sizes. Let us know if your project requires something different, there's nothing we can't build!

NO EXCUSES TEAM
SOLUTION PROVIDERS

Space Age provides our customers with technical support from design to installation with our NET Solution Providers. These NICET level experts will help you through the design process with their extensive knowledge of industry standards and code information.

Contact us today at 1.800.486.1723 or sales@1sae.com and one of our NET professionals will be thrilled to help you bring your next unique smoke control solution to life.
